We have an office on the Gold Coast and also in the UK. We offer over 700 courses, over 100 ebooks and printed books, and support a diverse community of companies that license our course content. We have also launched a new course subscription model of delivery and learning.

WHAT ARE THE BENEFITS FOR YOU?

Simplicity and value

There are no establishment fees.

There is very little set up work involved- the website is already programmed with the products you can sell- you just customise and personalise the website with your branding.

We do all of the work. Payments, course delivery, customer service, administration.

You get your commission paid monthly (minimum of \$300 or £200 - otherwise it is rolled over to the next month).

Promote the products how you like- the more you sell, the more income you will receive.

Your customers/ audience benefit from accessing our ebooks and short courses that have been written by highly skilled experts and professionals in the area.

HOW DOES IT WORK?

1. APPLY TO BECOME AN AFFILIATE

Complete the online application form and agree to our Terms and Conditions here.

2. APPLICATION IS APPROVED

Once your application is approved, we will set you up with an account and email you the details to access.

3. SET UP & PROMOTE

You login and set up your shop, upload your logo, select the courses and ebooks that you would like to sell, promote your site, link to your website and start making money.

4. GET THE MONEY!

We pay royalties every month (minimum payment of \$300 or £200)- depending on the currency you decide to sell in. If you don't make \$300 or £200 in a month then your commission rolls over to the following month. You will have access to your own sales reports to see details on who purchased courses and ebooks, what they sold for, what your commission is and a running total of how much commission you have earned.

WHO WOULD THIS SUIT?

● What kind of companies would this model suit?

Professional and industry associations, bloggers, small businesses, community groups and magazines... just to name a few!

If you specialise in a particular topic and have an existing audience, for example in gardening- this would be great to add an extra income stream to your business. You do not need to do much, except promote the courses and ebooks to your customers/ audience.
