

ACS LEARNING PARTNER

Partner with ACS to sell courses for additional income for your business.

How does it work?

Select The Courses To Sell

Select the courses from our 20 hour course catalogue of approximately 80 courses that you would like to sell to your customers.

Sell courses to your Customers

Add the products to your website and promote. You sell the courses to your customers and when you sell a course to your customer, you invoice them and collect their money.

Add your Customer to the Learning Management System

We will provide you with a login to our LMS- Login.Training. When a customer enrolls in a 20 hour course with you, simply add the customer to the LMS and enrol them in the course (it's very easy to use).

We manage the rest!

When you enrol a customer in login.training, we are notified and will invoice you (with an agreed discount applied). We also contact the student with an email how the student can access the course. We handle the student administration all the way through the student journey- the customer receives a Certificate of Completion when they are successful. You can see reports of how the students are progressing.

What's in it for you?

When you sell our courses at the retail price, we invoice you a wholesale price- so the difference is profit! Ask us for more details of how this works. For more information, visit www.acsaffiliates.com/learningpartnerapplication.aspx

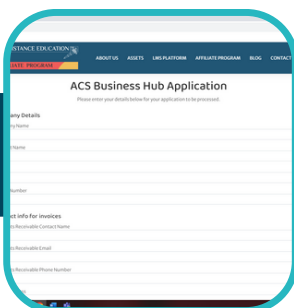

ACS DISTANCE EDUCATION

ESTABLISHED. INNOVATIVE. LEARNING FOCUSED.

ACS LEARNING PARTNER

How do you start?

01

Complete Online Agreement

Complete the online agreement, with your contact details and accounts department details here:

www.acsaffiliates.com/learningpartnerapplication.aspx

02

Access the Learning Management System

Once we receive your online agreement, we will be in touch with your login details for our Learning Management System- 'login.training'.

03

Learning Made Easy

In the LMS, you can add learners, assign them to 20 hour courses and see the learner progress reports.

We will email the student course login information and your accounts department an invoice.

04

Student Management

We will manage all of the student needs, administration and provide additional support as needed. A Letter of Completion is automatically supplied upon successful completion of the 20 hour course.
